

November 29, 2000

TO: West Valley Members of the MAG Regional Council  
West Valley Members of the MAG Management Committee  
Members of the MAG Transportation Review Committee  
Other Community Representatives

FROM: Chris Voigt, Senior Engineer

SUBJECT: PRELIMINARY CONCEPTS FOR THE MAG GRAND AVENUE  
NORTHWEST (LOOP 101 TO 303) CORRIDOR STUDY

On November 14, 2000, an Agency / Community Forum for the Maricopa Association of Governments (MAG) Grand Avenue Northwest Corridor study was held in the City of Surprise Council Chambers. At the Forum, maps displaying concepts for new infrastructure were reviewed and discussed. In response to requests from agency and community group representatives that attended the Forum, copies of the maps are being distributed for information. While the enclosed material is strictly preliminary in nature, any input you may have regarding the potential impacts or feasibility of the concepts presented would be welcomed. We would appreciate receiving any comments by **December 18, 2000**.

These preliminary concepts are being presented to initiate discussion on potential improvements for this section of Grand Avenue. Please refer to the November Agenda package for further information on the study including a summary of the issues and key objectives identified to date. The infrastructure improvement concepts shown on the maps will be further developed based on your feedback and technical analyses, including a review of predicted traffic volumes, that have yet to be conducted.

If you have any questions, please contact Eric Anderson or me at (602) 254-6300. Project materials including Forum and meeting materials are also available on the MAG website, [www.mag.maricopa.gov](http://www.mag.maricopa.gov), under "News and Events".
